 - ☞ Grills other than described above (e.g. lower grill in photos bellow) are not subject of this evaluation.

Radiator Grill

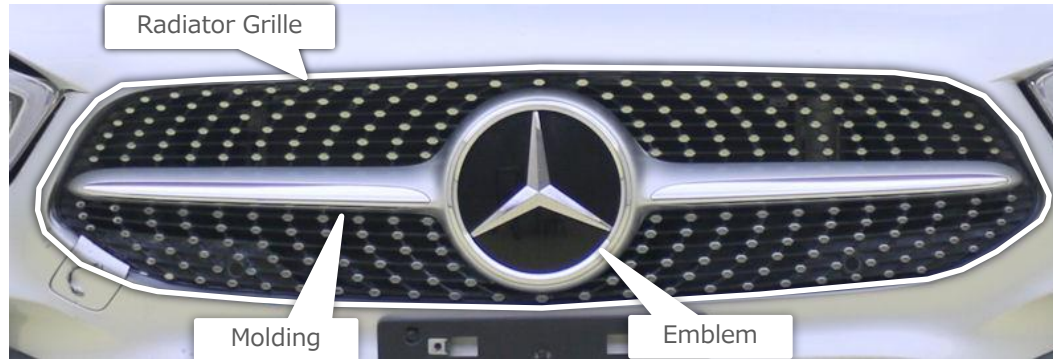

Examples of Grills to be checked / excluded from this evaluation

Criteria

Ornament parts installed on the Radiator Grille as separate parts should be supplied individually.

Condition of supply of each component of Radiator Grille including ornament part on Grille, like moldings or emblems.

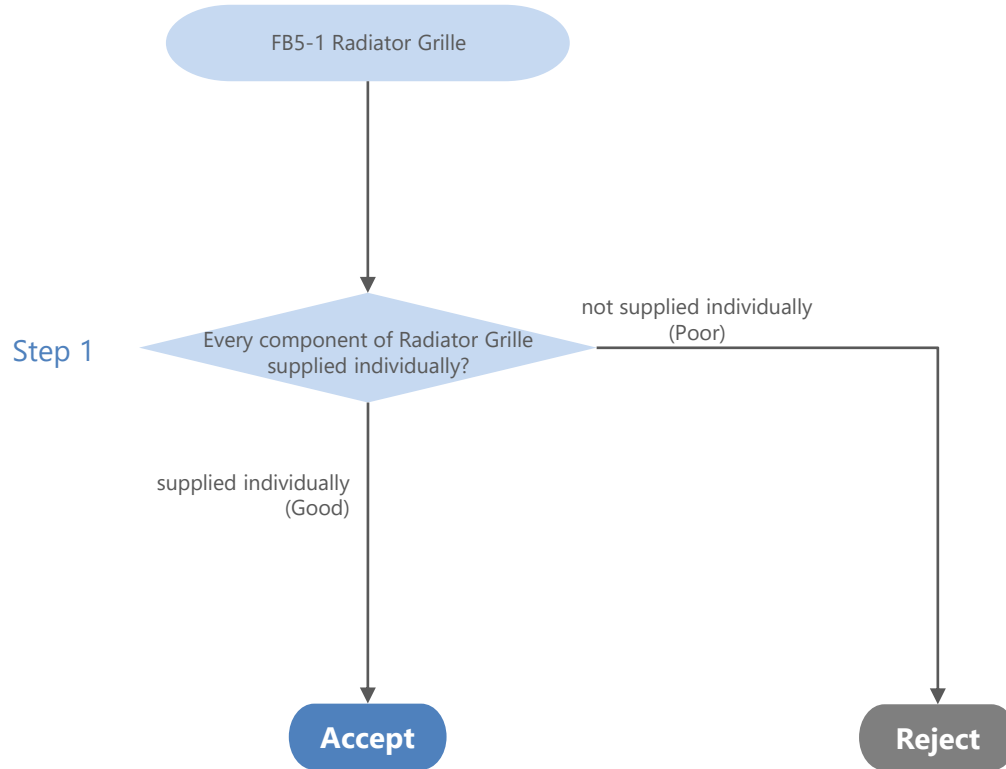

Reason

When ornament parts are installed on the Radiator Grille and every part are supplied individually, if any of them are damaged, only the damaged parts can be replaced.

Good example where every Radiator Grille component is supplied individually .

Check Flow

Check – Step 1

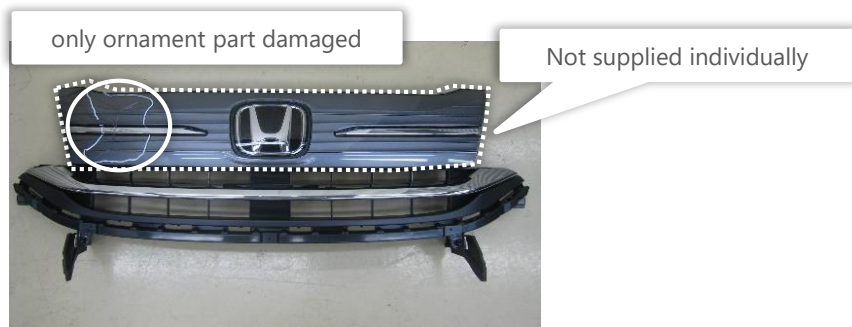

Check if every component of the Radiator Grille is supplied individually.

【Determination】

Good

- When every component of the Radiator Grille is supplied individually, it is determined as Good and **Accept**

Poor

- When every component of the Radiator Grille is not supplied individually, it is determined as Poor and **Reject**
